

# THE EMPRESS EXPRESS

VOLUME XIV. No. 40

EMPRESS, ALTA. THURSDAY, Mar. 3, 1927

Price: \$2.00 Per Year

## United Church

Church School, 2 p.m.  
Everybody welcome.  
"The heart of culture is the culture of the heart; the only way to form character is through religion."

Public Worship, 7:30 p.m.  
It takes great motives to make a great life. Without such motives it is impossible for one to live nobly. Christ gives us adequate motives for worthy living.

With such purpose we meet for worship. You are invited to join us.  
Anthem: "When I shall see Him."

N. W. Whitmore, Minister.

## Forks School

Public worship, at the Forks school, will be conducted at 2 o'clock Sunday afternoon, by Rev. N. W. Whitmore, roads and weather permitting.

## Cavendish

Mr. and Mrs. S. J. Hurl, entertained about forty of their friends at a party on Friday. A very pleasant evening was spent in dancing and games. Everyone who was present reports spending a very enjoyable time.

Mr. John Housewey returned home from Calgary on Friday night, where he has been spending a few days.

Mr. D. E. Hawkins returned home on Saturday from the Empress hospital. We are pleased to report he is progressing favorably.

## Enjoyable Event

The Currier's dance held in the theatre on Monday evening, was most successful. Slim Laflour, officiated at the ivory, Glen Russell, the violin; Ted Cohett, the banjo; Ed McDune, drums. Old time dances were interpreted and thoroughly enjoyed by all. The dance continued into the wee sma' hours.

## Dr. HOFFER

(Grad. of Pittsburgh)

## DENTIST

In Leader, every Tuesday and Wednesday  
Prelate - Monday and Friday.  
Empress-Thursday.

## School Chronicles

Editor, N. Boyd, Asst. Ed., D. Jackson

### HOCKEY

During the winter months the High School hockey team have played some very interesting games. They have lost but very few games and those they did lose were acknowledged with good sportsmanship.

### DUTY

Duty's not a pleasant thing Seldom does it dance and sing, Seldom does it dream the hours away, Pleasantly by far is play. But when all is said and done; Duty is the friendlier one.

Duty's frown but seldom lifts, Duty never shows its gifts, Yet the willing boy who stands Doing all that it commands, Finds that he has come to know Joy's which pleasure can't be shown.

Duty brings a boy to fame, Gives him an honored name, Duty holds its head erect, Guarantees his self respect, Shows him from the iller's curse Gives him power and fills his purse.

Duty makes his muscles strong, Lifts him high above the throng, Has a thousand tongues to tell Praise of him who labors well, Pleasures make a finer show, Duty pays him better though.

Do your duty boys, and stick, Hold your post through thin and thick Hard it seems, but never mind, Do the task to you assigned, Duty pays these dividends: Health and wealth, and pride, and friends.

### A TRAGEDY

Scene: The old homestead. Time: any.

St. Johnny left home looking well and full of highest hopes. He was eighteen years old and had graduated from high school the previous Spring. Now, he was fitted in his host suit, and after taking a last farewell of his fond mother, he picked up his bag and started off.

Sometime later he returned. He no longer looked neat and clean, but dissipated and over-indulged. There was a haggard and careworn expression about his face. He seemed in the depths of despair. The sight of his old mother proved too much for him, he broke down and wept on her shoulder.

## Curriers' Annual Banquet

The Currier's banquet and annual meeting, was held Monday evening, February 28, at the Dominion Cafe. Close to forty guests sat down to a well-prepared repast. After satisfying the inner man thoughts turned to the business of the evening.

Officers elected for the year were: Hon. Pres: F. Garshaw, M.P.; President, M. G. Boyd, Vice-President, J. McNeill; Secretary - Treasurer, Norris F. Storey.

Discussion was entered into regarding prizes in the Bonspiel and showing extra member to play on rink, where through some unforeseen circumstance a member would be unable to enter the competition at the last minute. Some different method of the selection of rinks at the commencement of the season was also talked over.

The continuance of curling activities was discussed. A motion to assess members and continue playing in the evenings was defeated. The names of some twenty members were given into the Secretary as wishing to continue playing in the afternoons and it was left to these members to make their own arrangements in this connection.

Born-To Mr. and Mrs. Bailey, Binodios, Friday, February 29, a daughter.

"Mum-I'm busted out," he sobbed. The mother stroked the heavy head and shoulders, "Don't take it so hard," she said, "I'll buy you a new and bigger vest."

Bobbie, a pupil in the primary school, clasped to story over into the more advanced class, and there noticed an instructor performing an experiment in the laboratory.

"What are you doing with the water, sir?" asked Bobbie.

"Analyzing it my boy," was the reply.

"Analyzing it. What's that?"

"Finding out what it contains?"

"Well. What does it contain?"

"Two - thirds hydrogen, one third oxygen."

"Gee, Professor," said Bobbie, "there there is no water in it at all!"

Waiter: "How would you like your steak, sir?"

Exasperated patron: "Very much."

## You Can Always See

### A FORD

travelling  
In ALL KINDS of Weather.  
You have seen ours all Winter.

We know you ask how it is done?

We do not use a heated garage, not necessary. But we use

### The Hot Plate

#### Vaporiser

which is now standard equipment on all cars.

You too can have one for the small sum of

\$14.00

for your car. Why not, and drive any time - 25 below if you wish.

## N. D. STOREY

The Store With The Stock

## Sharrow Ice Carnival

Fair weather favored the Sharrow Local U. F. A. Carnival, held at Mr. H. Demore's, Saturday, February 19. There was a good turnout of skaters and onlookers from the surrounding country, Empress and Bindloss. The costumes were interesting and provided many opportunities for smiling. Uncle Sam, Old Dutch Cleanser, Sambo, the young Duke and Aunt Dinah were there. Also two Black Cats, an Eskimo, Indians, Chinaman, Nurse, Santa Claus, Clowns, Witch and others. Messrs. Howard Robson, Angus McDonald and George Robson were judges.

The boys hockey game between the north and south resulted in a tie, and when they were through, men of all ages got on the ice for a game. After lunch was served and the children were handed their peanuts and candy, people visited with one another, and then struck out for their homes apparently feeling much the better for their good time.

## CARD OF THANKS

The members of Sharrow Local U. F. A. appreciate the co-operation of the following business men of Empress and Bindloss, who generously donated prizes: J. N. Anderson, N. D. Storey, Empire Cafe, M. Boyd, W. Brodie, A. Bellie, Empress Drug Co., J. Hughes, W. H. Bartlett, H. Hall, George Robson, S. Fitching, Bindloss Cafe.

We are agents for all magazines and newspapers. Give your orders to the "Empress Express."

Rev. N. W. Whitmore was a patient in the Medicine Hat hospital last week for a couple of days suffering from an influenza cold.

Definite indications of the largest building year Canada has had in more than a decade are now shown by the record of the first six months of this year. The very large and unusual total of \$19,543,800 worth of new construction for the first half of the current year and contemplated new work to the value of \$104,508,500 forecasts great activity for the remaining months. During June contracts awarded totaled \$54,180,400, an increase over June, 1926, of 63 per cent.

One of the greatest foundations upon which the Canadian national spirit rests was laid by the Canadian Pacific Railway was the conviction uttered by J. D. Cameron, of Glasgow, in an address before an audience at Pembroke recently. "Not merely did this railroad act," he said, "as a bond between all the provinces of the Confederation, but it was, by its conception and final construction, a greater force than anything else for the unification of the scattered provinces."

The sea-faring settlers of the Herbrides are not all fishermen as one might expect, but farmers in a small way known in the rugged northern islands as crofters. Father R. A. Macdonnell, the clergyman in charge of the immigration of these hardy folk to Western Canada, disclosed this interesting point recently en route to his headquarters at Red Deer, Alberta. Father Macdonnell has been in Canada about fifteen years and has been engaged in immigration work during that time.

The Earl of Clarendon is responsible for the statement that the 25 families who he personally interviewed, sent out to Canada under the Overseas Settlement League, has not met with one malcontent. He intimated that the settlers were unanimous in the opinion that Canada had been good to them. His Lordship, accompanied by the Countess of Clarendon and their three children, Lord Hyde, Lady Joan Villiers and Hon. Nicholas Villiers, is making a study of the immigration problem as he travels to Banff, Lake Louise, and other points west in the Dominion.

## Golden Wedding Anniversary

On Tuesday evening, February 22nd friends gathered at Beautyland Schoolhouse, to celebrate with Mr. and Mrs. T. C. Rogers their Golden Wedding Anniversary.

With splendid spirit, characteristic of the people who have lived in this district, willing neighbors had previously prepared a program, decorated the school, fixed up tables, and hauled a bunk car to the school for the children.

The guests were at the tables when the Bride and Groom were escorted to their places to the strains of the Lohengrin Wedding March, played by Mr. F. Lydsman.

Miss Edna MacDonald, presented the bride with a lovely bouquet of carnations and daffodils, on behalf of the children of the district, after which the Bride and Bridegroom received the congratulations of the guests.

The chairman of the evening, Mr. H. Demore, introduced Mr. H. J. Rogers, of Exford, Sask, brother of the bridegroom, who had come specially for the occasion; then began the entertainment of the evening - speaking appropriately to the occasion.

Community song, "Comin' Thru the Rye."

Mr. B. G. Sarvis said "Grace," and the first course was then served.

Solo, 'Because,' Mr. F. Lydsman, accompanied by Mrs. D. Mack and Mrs. P. Spaen.

Toast to Bride and Bridegroom by Mr. B. G. Sarvis Responded to by the Groom.

The remarks of Mr. Rogers and Mr. Sarvis were enjoyed by all, as they told of their experiences of many years ago.

Community song, "For he's a jolly good fellow."

Recitation, Mrs. Wick - poem composed by herself for the anniversary.

Telegrams read from Mr. and Mrs. H. C. Cotter, Mazenod, Sask; Mr. and Mrs. G. E. Chudleigh, Bird's Hill, Man.; Premier Mackenzie King and Hon. Hugh Guthrie. Also a letter from Mr. and Mrs. A. B. Judd, Edmonton.

Piano solo, Mrs. D. Rogers, Violin solo, Mrs. P. Spaen accompanied by Mrs. Mack.

Course Two was served. Reading, D. Rogers.

Toast to Pioneers, Mr. P. Spaen, responded to by Mr. J. Murs. Mr. Murs's remarks, especially about his seven day trip with the oxen from Medicine Hat, were well received.

## Empress Theatre

Friday, March 11th

## "Her Man O'War"

A story of the Great War

A delightful story of life and love. A tremendous theme, finely filmed

Admission, 25c and 50c

## Anglican Church

St. Mary's Church, March 6th, (1st Sunday in Lent):

11:00 a.m., Morning Prayer, 11 a.m., Morning Prayer and Communion Service

12:15 p.m., Sunday School.

L. J. Tatham,

Priest-in-charge

Eric Mackey, son of Mr. J. Mackie, of Saskatoon, arrived in town on Monday night.

Violin solo: Mr. P. Spaen, accompanied by Mrs. Mack.

Speech, Mr. Russell McDonald.

Duet, "I Love You Truly," Mrs. Mack and Mrs. G. Sarvis.

Recitation, Mrs. F. Tucker. Toast to our Homes, Mr. D. B. Mack. Responded to Mr. H. Demore, who recited Edgar A. Guest's poem, "Home" accompanied by "Home Sweet Home" played on piano by Mr. F. Lydsman.

Piano Solo, Mrs. J. Murdoch: Community Song, "Old Folks at Home."

Solo, Mrs. G. Sarvis. Toasts to Ladies, Mr. Wm. Bicknell. Responded to by all ladies present, with a short recitation.

We appreciate your toast, Of which we like to boast, To the man we like the most.

Instrumental, Mr. Spaen and F. Lydsman.

Toast to Grandmothers, Mrs. D. Rogers. Responded to by Mrs. Wick.

Community Song, "Little Brown Jug."

Course Three served, with wedding cake.

Presentation Address, Mr. B. G. Sarvis: Bride and Bridegroom were presented with radio set from community by Master Blair Mack. The Bridegroom replied and thanked the guests on behalf of Bride and himself.

Solo, Mrs. F. Staples, "The Sunshine of Your Smile."

Toast to our Friends, by Mr. F. Lydsman. Mr. D. Rogers responded.

Guest, Mrs. Murdoch. Toast "Auld Lang Syne," Mr. Dan McLaure. In response the guests sang Auld Lang Syne.

An hour was spent in friendly conversation among the guests and a very happy evening was then broken up.

## Semi-ready TAILORING

### Character

Plenty of color, rightly arranged, spells harmony. Plenty of style, cut, fit, and character... character in clothes at any rate. And Semi-ready cares to bargain in men and clothes.

## EMPRESS DRUG CO.

## FOR OVER 30 YEARS

the record of Red Rose Tea is a record of steady progress.

To keep up with the extra demand during 1926 and to further improve the method of packing, so the quality of this fine tea will be more surely protected, the Red Rose Tea packing plant has been completely transformed.

The story of this change will be told in later advertisements.

# TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

## Solving Western Problems

Dr. H. M. Torg, president of the National Research Council and also of the University of Alberta, making appeal in a recent issue of a Canadian periodical for greater aid in the work of research in Canada, says: "Such an organization could in a few years be made to mean far more to industry than all the petty tariff changes about which there is so much agitation."

Dr. Torg is a man of sound economic views, is above playing the game of party politics, and is one whose opinions carry great weight throughout the whole western country, and, indeed, to an increasing extent throughout the Dominion. His words, above quoted, are, therefore, deserving of attention.

The truth of this statement can hardly be questioned, because, by making production more efficient greater help will be brought to industry in its branches than can possibly be done by any tariff. Efficiency in the making of industry assists all other branches whereas tariff changes which are designed to help one particular industry or group of industries very frequently operate to the disadvantage of other industries more or less dependent upon the first group.

The National Research Council is, within the limits of its comparatively small income, practicing what its president preaches as to the undoubted benefits of scientific research applied to the needs of industry. A few days ago announcement was made that research work of really vital importance to all the wheat farmers of western Canada is to be carried on at all the provincial universities of the three prairie provinces in association with the Dominion grain research laboratory at Winnipeg. The particular problem to be tackled is damp and tough grain, the importance of which will be appreciated by every farmer who has sustained loss during the present crop season.

The National Research Council some time ago appointed a special committee on grain research to study various problems connected with the production and marketing of grain, including factors affecting milling and baking quality, commercial grading, and diseases affecting grain plants, particularly rust. This committee now proposes an immediate survey of the methods employed in grain drying, to be followed by a study of the different methods with a view to determining which is most advantageous from the viewpoint of economy and the resulting quality of the dried product.

In order to make investigation as thoroughgoing as possible, the Universities of Manitoba, Saskatchewan and Alberta will engage in the work. Milling and baking test laboratories of the most modern type have already been installed at the Alberta and Saskatchewan Universities and the same equipment is being installed in Manitoba. Dr. Torg has expressed the opinion that it is doubtful if a research of such magnitude has ever before been undertaken in Canada.

Our Prairie Universities are playing a large part in the development of these provinces and in finding solutions for many problems. Research work is necessarily slow. To be of any value it must be patient, thorough, frequently covering years of study and many tests. Anything haphazard will not do. Because of this, many people are impatient of research work and are critical of money spent on it. But the fact remains that it has been the work of scientists and experts, rather than the work of the general public, that has made the great industrial nation it is today. The industries of Great Britain built up their world trade, not because of tariffs, but through the application of scientific discovery. Industrial Germany was the product of research work probably to a greater extent than any other country.

Canada, it must be admitted, has been backward in this respect, and our manufacturers are largely to blame, because for years they have been obsessed with the idea that in customs tariffs, and in Customs tariffs alone, was prosperity to be found. If the Canadian manufacturer would throw the whole weight of their influence and resources back to the National Research Council, a new and better era in Canadian industry would result.

The power derived from the hydro-electric plants at Niagara Falls is equal to the combined efforts of 45,000,000 able-bodied men.

Peas, like diamonds, are found in different colors, and, sadly enough, when the black peas are the most expensive.

When a rich man tells he frequently does it by proxy.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulence, Wind Colic and Diarrhea, allaying

Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitation, always look for the signature of *Dr. J. C. Williams*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## Delivery Horses in Demand

Reserve Animals Always Needed to Fill Up Gaps

Clean, upstanding horses, sixteen hands high, especially strong in the legs, weighing from 1200 to 1400 pounds, and single broken, are the type of animals business firms want for delivery horses, members of the Saskatchewan Horse Breeder's Association were told at their annual meeting by Arthur Newman, Winnipeg. Mr. Newman was speaking for the larger firms in that city which require a number of horses for service on their delivery wagons.

"There are over 400 delivery horses in daily service to Winnipeg," Mr. Newman stated, "and reserve animals are needed at all times to fill up the gaps in the ranks. Only one in ten of the animals we get now are single broken, and you can imagine the difficulty of breaking them in busy streets of Winnipeg, for the farmer who has a horse or number of horses answering the description of what we consider the 'Typical Delivery Horse' will always be able to sell them, and at good prices."

## Swollen Joints,

## Quickly Limbered Up

## Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in the treatment of swollen joints, sprains, rheumatism, and all other conditions of the joints. It is able to penetrate quickly, and down it sinks into the tissue, carrying its healing, soothing action wherever it goes. For stopping muscle pain, for curing sprains, for stiff joints, Nerviline is a complete success. It is a complete success in all cases where the muscle power of the joints is lost. Nerviline is a wonderful liniment. Nearly thirty years of success prove its merit. Nerviline, which is sold everywhere in large 50-cent bottles.

## France Electrifying Railways

Doing More Than Any Other Country In This Line

Here is a reason why railroads will have to change their method of propulsion some time in the near future: Having a train weighing more than 4000 tons, a 16-wheeled electric locomotive in France the other day did the 145 miles between Paris and Véziers at an average speed of 83½ miles an hour.

Steam has done as well as this when it comes to speed, but those records are now being broken by electric locomotives. A steam locomotive, due to its reciprocating parts, must be more frequently overhauled than the electric motor type, which runs, and then turns right around and off to over again.

France is doing more than any other country right now, toward the electrification of her railroads. Several lines are almost completely electrified, and work is proceeding on others. This is part of a great hydro-electric development fostered by the government with the idea of relieving France from dependence on imported coal, and providing cheap power for railroads and industries.

## That Overseas Trip

The Canadian Pacific Railway is opening up a new line of tourist cars from Winnipeg each week to connect with steamers sailing from Saint John, N.S. This arrangement has been made in order to provide every convenience for overseas travellers. These tourist cars go direct to the ship's side, and assure continuous and facilitate transfer from train to steamer. See any ticket agent of the Canadian Pacific to arrange for bookings and reservations on these cars.

## Ice Fall Is Perennial

Surpassing any waterfall in grandeur, an ice fall in the heart of Mount McKinley, a large glacier, coming down from a height of 15,000 feet to the 15,000 foot level makes a sheer fall of 3,000 feet. The fall is perennial.

## Grain Shipments Via Pacific

Canadian Pacific and other steamship lines plying out of Vancouver will be busy carrying grain during the next month, there being used 5,000,000 bushels to go forward during that time, to the United Kingdom, the Orient and South America.

Recognized as a leading specific for the treatment of worms, Meigs' Worm Expeller has proved a boon to suffering children everywhere. It is sold everywhere.

"No dark and yet no light," remarked the funny man as he looked at a ton of coal the driver had just delivered.

There isn't anything chicken-hearted about the game rooster.

It is a deplorable fact that life curiosity keeps a lot of people busy.

Athletes use Minard's Liniment.

W. N. C. 1067

## Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds

Children's attention is easily captured by the "Dose" of "Vicks VapoRub" being given them. It is not, however, as the mother thinks, does not upset little stomachs. At the first sign of a cold, or any other cold trouble, apply Vicks VapoRub. There is nothing to swallow—just "rub it on."

**VICKS VAPORUB**  
Over 17 Million Jars Used Yearly

## Public Health Scholarships

Social Hygiene Council to Create an Endowment Fund

Creation of an endowment fund to provide for one or more public health scholarships in a Canadian university. It is indicated, will be one of the most significant items on the program of Canadian Social Hygiene leaders during the coming year.

As far as is known, no similar fund now exists anywhere in the Dominion and the proposal, while not yet workable, for the creation of such a fund is being rapidly, during the past few years, has been the growth of the idea that health is not merely a matter which should be considered by the individual and the family doctor, but one which is as vitally a matter of public interest as the tariff or freight rates and most intimately related to the welfare of the country as a whole.

While no details are yet available, the proposed scholarships, it is understood, would likely be offered as aid to selected medical students who have shown special aptitude or liking for the study of public health, and are interested in specializing in that particular field of medical work.

## A DOCTOR'S PRAISE

A Noted Doctor Strongly Endorses Dr. Williams' Pink Pills

The test of any remedy lies in its acceptance and endorsement by the qualified medical practitioner. No such authority than Dr. Andrew A. Clark, physician to the Papal household, writing on the subject of anaemia, the debility of the nervous system and disorders attributable to the impoverishment of the blood, Dr. Williams' Pink Pills, recommending them as superior to other remedies.

Dr. Clark's testimony reads as follows: "For several years I have used Dr. Williams' Pink Pills. In my work and I have always found them efficacious in the treatment of disorders due to impoverishment of the nervous system, anaemia and neurasthenia, and in the treatment of debility in young women. I have found them to be a most reliable remedy, but in my experience no one of them manifests a more efficacious effect to that of Dr. Williams' Pink Pills."

"It seems to me that the atmosphere has been cleared," said the Premier in referring to the conference. "There have been spirit that keeps us together. The next problem is to bring it to practical form. We have everything we require, and the next problem is to develop, to prosper, to make our people prosperous."

## Alberta Takes Care of Settlers

Boards of Trade Supply New Comers With Information

Immigrants to the number of 6,148 registered at the Immigration Hall at Edmonton in 1925, as compared with 1,284 in 1924. A large proportion of the British Isles, and a large number from Central Europe. The boards of trade at Edmonton, Calgary, and Lethbridge, are bestirring themselves to supply the new settlers with the best information as to desirable lands and all they can to help him along.

## Agriculture On Up Trend

Farmers Have \$2,500,000,000 Invested in Country

Hon. T. A. Cress, president of the United Grain Growers, predicts that Canada's development in the next five years will be unparalleled in history. Agriculture in this country is just starting a great forward movement, he said, and farmers have already invested \$2,500,000,000 in the country.

Only the unfortunates endure the agony of corns. The knowing ones apply Hollister's Corn Remover and are relieved.

A foot of falling water was coming into harbor, and with a yacht named Psyche. An old salt stood on the wharf. As he saw the Psyche he removed his pipe and muttered: "Well, if that ain't the most outlandish way you to spell fish I ever seen!"

She: This paper says a wife in parts of Japan costs fifteen dollars. He: (with triumphant bitterness): Well, a good wife is worth it.

All family trees have more or less shade.

Minard's Liniment for animal ailments.

## A Wonderful Age

Seventeen Has Been Heroic Age for Many People

Many are the readers who laughed till they cried over Booth Tarkington's "Seventeen." The hero of that book is a typical boy at an age when momentous subjects swing into his line. Girls, tall and short, blond and brunette; clothes, his first dress suit, gorgeous neckties, the fancied necessity of shaving twice a week; flowers, bonbons, dates—at seventeen, what a life!

Seventeen is an age of something besides these things usually associated with callow youth, George Young, winner of the Catalina Channel swimming contest, is seventeen. Think of the qualities necessary to achieve a swim of 22 miles in cold, rough and dangerous waters. One hundred and two men and women made the start, some of them experienced swimmers for a decade or more, but it was a youth of seventeen who was there at the finish.

Seventeen is an age when most anything might happen. Time and again it has been an heroic age for some. At that age many a youth has borne the load of the family support, and he has, unconsciously, Fortitude, pluck, persistence, audacity, all these belong to the age of seventeen, and he is fully fitted upon to clear the world of the world. Was it not St. Paul who wrote to a certain young man, "Let no man despise thy youth?"

Miller's Worm Powders will eradicate the worm evil that bears so much of the blame for the troubles of the cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these parasites and restore the inflamed and painful surfaces to health. They are an excellent remedy for these evils.

## Farewell Message to Canada

Loyalty to Empire Means Peace and Security Said Premier Coates

It was an extraordinary heritage and tremendous responsibilities to make the best of it, and value the freedom that is ours after centuries of struggle. If we are loyal to ourselves, we will be loyal to the Empire, which means equal opportunities and security and safety to all who live within it."

This was the farewell message of Premier J. C. Coates, of New Zealand, to the people of Canada, delivered in an address to the Canadian Club at Vancouver, prior to leaving for San Francisco, whence he sailed on the last of his journey homeward from the recent Imperial Conference at London.

"It seems to me that the atmosphere has been cleared," said the Premier in referring to the conference. "There have been spirit that keeps us together. The next problem is to bring it to practical form. We have everything we require, and the next problem is to develop, to prosper, to make our people prosperous."

## Nothing Like It to Relieve Colds

In formula and action, BUCKLEY'S Cold Remedy is the most effective remedy in relieving colds, coughs, and croup. It is a most reliable remedy, and it is sold almost everywhere.

King and Prince to Exhibit

Prize Birds to be Shown at World's Poultry Congress in Ottawa

Among the exhibits at the World's Congress to be held in Ottawa, Canada, July 27 to August 4, 1927 will be prize birds from the farms of King George V. of Britain, H.R.H. the Prince of Wales and possibly from the famous pens owned by King Albert of Belgium and King Alfonso of Spain.

Exhibits to be shown at the Congress are coming from at least 35 countries all of which will be represented by delegates. No less than 2,500 poultry experts and fanciers are expected from the United States. The Congress is to be held in Lansdowne Park, Ottawa, where the Royal Exhibition has been held annually. Extensions to some of the principal buildings on the grounds have been made at a cost of \$250,000, in order to take care of the thousands of exhibitors that are coming to the Congress.

Exhausted from Asthma. Many who read these words know the terrible drain upon health and strength, which comes from a train of asthmatic troubles. Many do not realize, however, that there is a new remedy which will usually stop this drain. Dr. J. D. Clark's Asthma Remedy is a wonderful cure for this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

Take away a reckless automobile driver's license and he becomes a common pedestrian, which is about the furthest punishment the court could give him.

## Relieve Asthma with Minard's Liniment

It is easier for a young man to fool his own mother than it is for him to fool any other woman.

It is easier for a young man to fool his own mother than it is for him to fool any other woman.

# Exceptional Advantages Are Offered In Western Canada For The Sheep Raising Industry

No country in the world is perhaps better adapted than Canada for sheep raising and no country offers more opportunities for the development of the industry. The physical features, the soil, the climate and the agricultural population are all favorable to the production of mutton and wool of the highest quality. In most of the provinces there is an abundance of waste lands admirably suited to the raising of sheep. Furthermore, there are many farms, particularly in the west, where the sheep is being carried on. In eastern Canada on mixed farm lands and in the grain belt of western Canada the small flock of ten to fifty ewes is generally kept. These flocks can be maintained at little expense and return an excellent return for the labor required and money invested. In the rougher parts of eastern Canada and in some districts of Manitoba, larger flocks of from one to several hundred head are kept under semi-ranching conditions, often by new settlers who have been originally trained as fishermen. Many suitable areas are still available for the carrying of flocks of this size. In north-western Saskatchewan, southern Alberta and parts of northern Alberta, and in British Columbia, sheep ranching is practiced quite extensively, but even in these provinces there is much land awaiting ranching or semi-ranching purposes. On western farms, by utilizing stubble pickings, supplemented by a top-dressing of manure, the short finishing period of grain, the farmer could market choice mutton lambs towards the end of the season. The labor attached to sheep raising is not great and is more or less seasonal, lending itself readily to the order of events where the farmer is engaged in the major farm activity. The initial cost of a suitable flock is not large, and if the best returns are to be obtained the start, the best is one likely to be heavy. Expensive buildings are unnecessary for sheep and a cheap plot and straw shed is ample. No initial has a higher value for wool production than sheep. The sheep provides two sources of revenue annually. The lamb pays for the first year, and with his fleece and at two years produces both wool and lamb. Statisticians of the wool situation in Canada better for the shortage of wool during the past year has been reflected in price values to the extent of around 10 cents for the lower grades and up to 15 cents or better for the finer wool. The prospects are that the sheep men in the business have several good years ahead.

The Dominion and provincial governments have repeatedly drawn attention to the possibilities for sheep ranching in this country through bulletins by the various agricultural departments. The Natural Resources Department has issued a series of bulletins of the Interior, at Ottawa, has also published a report on the woolen industry and quite recently has been making a survey of the woolen industry in Canada, taking into account the extent and location of the various areas in Canada adapted from the standpoint of foot pickings and the carrying of sheep ranching, copies of which are available, without charge, to those interested. A complete summary of the number and location of breeding units is also shown on this map.

In this connection it may be interesting to quote a well known British authority with respect to the efficiency of Canadian woolen mills, namely Mr. Alfred E. Baker, professor of Textile Industries at Loughborough University, who, following a visit of inspection to Canada and the United States in 1919, said:

"Upon the whole, the Canadian wool mills come up to the best Yorkshire—some few Yorkshire mills are better, many are very much equal, and some are better. Canada is not so fortunate in climatic conditions that even in spinning and weaving no special arrangements, other than those made in Yorkshire, for example, are adopted."

"Woolen mills are in evidence in every textile district of the Dominion and the equipment of these mills leaves little to be desired. The woolen mills of the United States are possibly behind the woolen mills of Canada in the fact that some of the Canadian woolen mills cannot be beaten."

**Canadian Hides for Russia**  
The Russian Government has just another lot of Canadian hides this spring, it was announced at the Alberta Provincial Horse Breeders' Association meeting at H. H. Wilson, Calgary, Dominion Government Agent. From 2,000 to 5,000 will be wanted.

A good tailor is always delighted when he encounters a good fitter.  
W. N. U. 1067

## An Extraordinary Fog

Moved Rapidly From One Part of London to Another  
London played hide and seek recently through one of the most extraordinary fogs of recent years. As an evening newspaper aptly described it, "instead of being one of those traitorous and respectable fogs it was so grotesque and abominable that it blotted out almost every part of London to another."

The fog began its adventures shortly after noon, when, without warning, a thick, white pall of mist descended upon the city. It was not the usual variety of separated parts of the fog, but a solid mass of it. By 2 o'clock one half of Throgmorton street, in the financial district, was invisible, while on the other side, on which is the Bank of England, there was sunshine. Workers in Fleet street and the Kingsway district had the unusual experience of watching fog clouds roll along the streets at a fair speed.

In exactly two minutes Alway's passed from sunshine into a thick, choking mist while Piccadilly Circus was blotted out almost as quickly by banks of fog advancing from the streets and converging there. Several minor traffic accidents resulted and in some cases serious injury was caused.

## Predicts No Summer This Year

Says Crop Season Fought With Great Dangers to Grain Interests  
Now comes Herbert Javira Brown, of Washington, ocean meteorologist and long-range weather forecaster, who in an address recently, predicted trouble for beans in all grain markets. He has joined other prophets in predicting "no summer" this year. He said:

"The crop seasons of 1927 in the Northern and Southern Hemisphere are fraught with grave dangers to the grain interests of the world. "Weather predictions based on changes in solar radiation and their effects on ocean temperatures indicate a severe year."

## Bays World's Record Jersey

Vancouver Man Pays High Price to Buy One  
Preston Oxford Janet, World's record Jersey cow for 205-day test, has been purchased by Mr. H. Brown, of Vancouver, an enthusiastic Jersey breeder, for a price said to have been around \$1,500. This cow was owned by Foster Williams, of the High School boy, of Armstrong, B.C., who secured her as a member of a Jersey Club, and developed her. Her record, made last year, was 14,923 pounds of milk and 572 pounds of butterfat.

**Swift Current Is Growing**  
Building permits issued at Swift Current for 1925 nearly doubled those of 1924, being \$114,750 as compared with \$50,020. Recent growth has been phenomenal. Permits for 1925 were only \$14,800 and those for 1924, \$55,250.

Scotland's greatest railway station, Waverley, Edinburgh, covers 20 acres and deals with more than 1,000 trains a day. Its largest platform is more than a mile in length.

Brown—I feel fretted. I haven't a friend in the world.  
Brown—You can make one right now. I need 10.

**An Attractive Dress for Daytime Wear**  
Plants are the outstanding feature of the newest dress—whether of one piece or two. You are sure to be in the mode of this dress with a frock like the one pictured here. The bodice front is gathered in the waist, forming a panel, and the skirt has groups of plaits in front, while the back is plain. The collar may be worn open or closed and the long sleeves are gathered to wrist-bands. No. 1413 is in sizes 16, 18 and 20 years. Size 18 (36 bust, requires 2 1/2 yards 20 inch, and 2 1/2 yards 24 inch material. Price 25 cents the pattern.

Illustrating the newest and most practical styles will be the latest of the book 10 cents the copy.

## Oriental in B.C.

Hold Property in Province Assessed at \$11,000,000  
British Columbia's Oriental population today stands at about 46,000, or 52 Asiatics for every 1,000 whites. It was disclosed in a survey recently conducted by the provincial government all over the province. The report, which was made public by the department of agriculture, shows the Oriental population has grown rapidly of late but the Japanese are outstripping the Chinese and Hindus.

Oriental in British Columbia, according to the report, hold real property assessed at \$11,000,000; more than 3,000 Asiatics are licensed to carry on business of almost every kind in the province and attendance of Oriental children in public schools has increased at a startling rate, representing 32 per cent. of the entire school population. The Oriental school attendance is increasing at more than double the rate of the increase in total school population. The report further shows that the Oriental problem, once dormant almost entirely in British Columbia, is beginning to hit the rest of Canada in a big way, at least with the sudden flooding of Oriental in the other provinces, movement which is perhaps the most significant fact revealed by the investigation.

**Garnet Wheat Is a Success**  
Ripens Ten Days Earlier Than Marquis Wheat  
Garnet wheat has proved itself as to its reputation, says the experts of the Federal Department of Agriculture. Mr. R. McPherson, Minister of Agriculture, avers that the new variety of farmers who grow Garnet wheat last year are maintaining on the one "trial" claim of the wheat—that it ripens ten days earlier than Marquis. It is therefore highly suitable for growing along the northern limit of the wheat belt. And it was to farmers in those northern latitudes that the Government is now planning to plant. Yields have also been high. One farmer, having only twelve acres available for sowing, harvested 61 bushels to the acre, or a crop worth \$2,000.

## Unoccupied Lands in Manitoba

Total of Unused Lands in Province Estimated at 4,349,289 acres  
Preliminary announcement of the results of the survey and classification of unoccupied lands in Manitoba, instituted by the Provincial Government, indicates that the total of unused lands in the province is 4,349,289 acres. Of this 1,857,841 acres, or 42.7 per cent. is owned by the Dominion Government; 2,031 per cent. by the Railway Settlement Board; 5.77 per cent. by the Hudson's Bay Company; 2.59 per cent. by municipalities; 4.78 per cent. by the Provincial Government; 8.19 per cent. by local owners; 18.66 per cent. by Manitoba owners; 5.69 per cent. by Canada owners and 8.13 per cent. by foreign owners.

## Taking Census of Turkey

Turkey's first national census, which was begun at Ankara, shows that the new capital in Ankara has a population of 45,745, with 10,000 more men than women. Fear of taxes and military conscription caused the natives to hide during the sporadic attempts to take the census. The census was conducted by the Sultan, Camille Jacquet, Belgian, is conducting the census.

# Three Prairie Universities Will Try To Solve Problem Of Tough And Damp Grain

## Western Rye Grains

Best Hay Crop in Sections Where Moisture Is Not Abundant  
Western rye grass has established itself as a valuable hay and pasture crop for the sections of the prairie provinces where moisture is not abundant enough to permit of the successful growing of timothy. Recent tests of the grass at the Lacombe, Alberta, Experimental Station, have fully borne out expectations as to the value of this fodder. In competition with timothy, different strains of timothy, and with Kentucky blue grass, western rye grass was easily first, outyielding the other grasses by a considerable margin.

It is interesting to note in this connection that the strains of rye grass tested in the experiments, "Garnet," a variety developed by the Central Farm at Ottawa, outyielded the commercial varieties used. Yet, according to the latest report of the Dominion Agronomist, there have been new varieties recently developed at the Central Farm which appear to be considerably heavier yielding than "Garnet." It is therefore expected that within a very few years further strains will be generally available that will produce more profitable yields than those in use at present.

## Second Largest Wheat Crop

Alberta Harvested 115,120,000 Bushels of Wheat in 1926  
In 1926 the Province of Alberta harvested 115,120,000 bushels of wheat, the second largest crop in its history. In 1925 the wheat crop totaled 102,325,000 bushels. The 1926 crop gave an average yield of 18 1/2 bushels to the acre for the province as a whole, though in the Peace River district the average was 20 bushels, with many fields yielding as high as 20 and 40 bushels.

The total market value of agricultural production, including game and fish, in Alberta last year, has been estimated by the Provincial Department of Agriculture at approximately \$264,000,000, compared with \$237,500,000 in 1925.

## Work of Colonization Association

Total of 1,661 Families Settled on Land as Result of Efforts  
During 1926 the Canada Colonization Association settled 754 families on 168,894 acres in Western Canada, 56,678 acres of which were in the Province of Manitoba, according to T. O. P. Herzer, manager of the Association. Since the Canadian Pacific Railway took over the Canada Colonization Association on January 1, 1925, a total of 1,661 families have been settled, taking up 402,600 acres of land worth with equipment about \$18,000,000 and \$13,000,000. Forty-five per cent of this land is in Manitoba, 20 per cent in Saskatchewan and 25 per cent in Alberta.

Nespe, known as the father of photography, made his first camera from a box and lenses borrowed from his grandfather's old microscope.

In order to make the investigation as thorough as possible, the universities of Manitoba, Saskatchewan and Alberta will act in co-operation with the Dominion Grain Research Laboratory at Winnipeg and with the other agencies concerned. Milling and baking test laboratories of the most modern type have already been installed at the universities of Alberta and Saskatchewan, and the University of Manitoba is in process of installing the same equipment. Tests will be reported in all three laboratories so that there may be no question of the complete reliability of the conclusions reached.

Dr. Terry pointed out to the meeting that the associate committee of the research council felt a very grave responsibility in undertaking an investigation involving questions of such importance to both the producer and the grain trade. He doubted if a research of such magnitude had ever before been undertaken in Canada.

**Alberta's Agricultural Production**  
Alberta's agricultural production in 1926 was of a value of \$255,000,000, very carefully estimated, according to the Hon. George Hoadley, Minister of Agriculture, as quoted in the Calgary Herald.

Charles E. Kariak, mayor, and Jim Lewis, postmaster, of Bethel, Alaska, traded 21 bullets to Anchorage to raise the two qualified voters of that district at the last general election.

Research work of the highest importance to all the wheat farmers of Western Canada is being carried out by the Dominion Grain Research Laboratory at Winnipeg, under the direction of the National Research Council of Canada.

About a year ago the National Research Council appointed an associate committee on grain research to look into various important problems connected with the production and marketing of grain. At its organization meeting last year, the committee drew up a comprehensive program of investigation, particularly with regard to wheat, involving factors affecting milling and baking quality, commercial grading, and certain disease problems.

A special meeting of this committee was held in Winnipeg recently for the purpose of selecting a representative Board of Grain Commissioners and representatives of the Wheat Pool in regard to the pressing problem of the wheat market. The meeting was held in the office of the grain board. There were present, representing the grain board: Commissioners Boyd, Robinson and Shaw, secretary Rathbone and Dr. P. J. Richard, chairman of the board; representing the National Research Council: Dr. H. M. Terry, president of the National Research Council, Dr. H. Newton, professor of agriculture at the University of Alberta, Dr. F. Thordarson, professor of chemistry, University of Saskatchewan; and J. H. Harrison, secretary of the grain board, University of Manitoba; representing the Grain Appeals Board, Mr. George Storer; representing the Saskatchewan Wheat Pool, Messrs. H. Marsh, Brooks Cotton and A. P. Sprague; representing the Central Baking Company, Mr. J. H. Harrison.

The meeting discussed the basis for the spread in prices between straight grades and tough or damp grades and the possible causes of the spread and baking quality of the methods of drying now employed. These two questions were considered in the light of the large amount of damp and tough grain coming on the market this year. Due to the great uncertainty of the two points it was decided to undertake at once an investigation of the whole matter. A number of the grain board and representatives of the Wheat Pool assured the committee that all necessary facilities for carrying out this investigation in existing drying plants would be made available, and that the committee would have the hearty co-operation of both the grain board and the wheat growers.

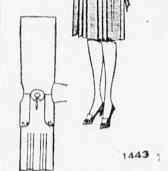

The first step to be undertaken will be a survey of the methods now employed in the drying of grain. This will be followed by a comparative study of the different methods, with a view to determining which is most advantageous from the point of view of economy and the resulting quality of the dried product. It is believed by the committee that the results of this investigation will also provide a more satisfactory basis on which to determine an equitable spread in price between the different grades.

In order to make the investigation as thorough as possible, the universities of Manitoba, Saskatchewan and Alberta will act in co-operation with the Dominion Grain Research Laboratory at Winnipeg and with the other agencies concerned. Milling and baking test laboratories of the most modern type have already been installed at the universities of Alberta and Saskatchewan, and the University of Manitoba is in process of installing the same equipment. Tests will be reported in all three laboratories so that there may be no question of the complete reliability of the conclusions reached.

Dr. Terry pointed out to the meeting that the associate committee of the research council felt a very grave responsibility in undertaking an investigation involving questions of such importance to both the producer and the grain trade. He doubted if a research of such magnitude had ever before been undertaken in Canada.

## Montreal Grets Their Excellencies

A striking impressive spectacle was presented at the C.P.R. Windsor Station, Montreal, on the occasion of the first official visit to that city of their Excellencies, Viscount Willingdon, Governor-General of Canada, and Lady Willingdon. A guard of honor of a hundred men of the Royal Canadian Mounted Police, and a command of Major Leslie Buchanan was drawn up in attention in the great concourse of the station, and a brilliant array of generals and other officers took part in the ceremony. As Their Excellencies approached, the men of the Highlanders Band broke into the strains of the National Anthem as the Royal Salute was given to the representatives of the King and Queen and the Royal standard was

displayed in greeting. The Governor-General and Lady Willingdon were very kindly commended to pass for the assembled press photographers and the resulting press photographs and the Hon. Mr. J. H. Harrison, Brigadier-General W. B. M. King, general officer command-in-chief military district No. 4, and Their Excellencies, Lord and Lady Willingdon.

## Prevent Grippe-build resistance in your system with SCOTT'S EMULSION

### WORLD HAPPENINGS BRIEFLY TOLD

There are 112,500,000 people in this city, according to preliminary official estimates. This is an increase of thirty-eight per cent since 1897.

The Saskatchewan wheat pool has taken out a \$100,000 holding period for a drying plant, at its terminal elevator in Port Arthur.

General Sir George W. A. Higgins, who was promoted for his services in the Crimean War, is dead at his home at Chichester, Marlborough, England.

Discovery of a supposedly new comet of the eighth magnitude is announced in a cablegram received at the Harvard Observatory from the astronomical clearing house in Copenhagen. It is to be called Reid's comet.

Twenty-seven rebels have been executed by the military authorities in Mexico City in reprisal for the massacre of a small French colony which was annihilated by rebels in San Miguel in December, 1912.

President Kruger's traveling wagon, which was announced in November, the City of London corporation had decided to offer to the Dominion of South Africa has been shipped to South Africa.

So many gold nuggets are being found by employees of the gold mines on the Lena River in Russia that the directors of the Lena Corporation have threatened to suspend work if it should not cease.

Aerial passenger service between Rome and Vienna has been opened. Twelve persons made the initial flight in the two-engine plane of 720 horsepower. The aerial trip between the two capitals will occupy only six hours as against 24 hours by train.

Pull agreement on the transatlantic questions which have been the subject of protracted negotiations between the Allies and Germany has been reached and there are no problems to be turned over to the League of Nations.

The Supreme Court of Canada in a judgment looks to the effect of the Tax Act (1922) of Alberta is invalid. The appeal of California, California, United, vs. the King, the Dominion of the validity of the tax is allowed with costs and the action is also dismissed with costs in the Supreme Court of Canada and the application of Alberta.

### Official Weights Are Lost

Put Away for Safe Keeping Cannot Now Be Found

Lost—The standards of Canadian currency.

Somewhere in Ottawa, probably some obscure corner of a dusty vault is a great iron box containing what would take six weeks to lift, containing the official weights and measures of Canada. With elaborate ceremony the standards received from England in 1824 were given in custody of the customs house in the governor and stored in "safe keeping." They disappeared when well hidden for today. Mounted Police, secret agents of the government and House of Commons have searched every corner of the vault for the safe without result for the valuable weights.

These "Kiln" items are none other than—

Wine—Which, being, that isn't right. The Kiln items are none other than—

Hulls—Which, being, that isn't right. The Kiln items are none other than—

Every child should know how to fix his teeth to be able to laugh from day to day.

Consumption of food here in this city has been very low since the day that the great war broke out.

When a man is not healthy, he doesn't need to realize that he can't eat in his home, and he can't eat in his home.

THE DANGER SIGNAL

A steady, healthy, hearty man is a man who is healthy, hearty, and hearty.

MINARD'S

KING OF PAIN

INMENT

W. S. C. 1922

### Is Universally Known

Prince of Wales Attracts More Attention Than Any Other Person

The is talked of in places where the great war was never more than a vague rumor. On the N.W. frontier of India I have seen the eyes of a wild Afghan gleam with interest at the mention of his name. A group of naked Burmese hunters around a camp fire in the basin of the Zambesi invited me to applaud a legend of his hunting prowess. I saw his photograph hanging in the mud hut of a Tanka chief in the Sudan. I could have bought picture postcards of him in most of the bazaars of Egypt. I once heard some Irish Gaelic discuss him incidentally on a Tír na nÓg ballad.

At a dinner party in a villa on the Bosporus I talked by Turkish host to interpret the subject of an eager wrangle that was in progress at one end of the table. . . . The exact quoted is from the first chapter of "The R. H. Character Study of the Prince of Wales," by Major E. F. Venn, M.C. The writer records his own experiences in Vienna, Paris and the United States, which, though less remarkable, support his statement that the prince attracts more universal interest than any living person.

Tramp Steamers Disappearing

Are Being Gradually Replaced by Scheduled Ocean Liners

Tramp steamers, picturesque but devoid of the sea, are gradually giving way to ocean liners operating on specific routes on regular schedules. The four the war, the Commerce Department announced, will be replaced by steamers to every 35 days operating by corporations, and the competition of these unscheduled vessels greatly affected the ocean freight rates of the world. Today there are only 27 tramp steamers, versus 123 liners, and the odd line ship, free to come and go as cargo offered, will soon completely disappear from the seas.

## Canada's Urbanization

(By C. W. Peterson)

The population ranks in the minds of thinking people that insufficient attention is devoted in Canada to the problems of our country compared with that devoted to those of the United States. At any rate, the rapidly with which Canada is building up her towns and cities may well give cause for serious thought as to the extent of our urbanization.

In 1901 and that of 1921, Canada's rural population increased by a little over one million, while her urban population increased by a little under three millions. During that period there was an enormous increase in urban population in every province while there was an actual decrease in rural population in five provinces with Ontario barely holding her own.

In 1931, 69 per cent. of our population was engaged in agriculture. In 1921, only 59 per cent. worked the land.

Less than fifty years ago, there were people who seriously believed that speech could not be transmitted over the wire. And when Prof. Alexander Graham Bell was giving an exhibition, it was necessary to distribute handbills to attract the crowds, probably because there was no in his day at that time, and people were not so much interested in the exhibition.

In Lawrence, Mass., on May 28, 1875, the following printed bill was handed round:

"The miracle telephone" Wonderfully discovered of the ages. Prof. A. Graham Bell, assisted by Mr. Prof. E. A. Tupper, will give an exhibition of his wonderful and miraculous discovery, the telephone, by the people of Lawrence, Mass.

Prof. Bell will be connected via the Western Union Telegraph and Vocal and Instrumental music and conversation will be transmitted a distance of twenty-five miles, and received by the audience in city hall. Prof. Bell will give an explanation of his invention, which was attended by the inventor himself, before he died. Bell, naturally is proud of the invention, and with recent developments, speech by telephone across the Atlantic there is still more reason to remember Prof. Alexander Graham Bell. But in these modern days, a new invention would have to be something new, extraordinary to attract a crowd of people who cause to see and remain to hear.

The more publicity of an official announcement today of something new in science is generally believed. A little more than a hundred years ago Bell might have been burned at the stake.

Many of the new inventions first presented at Koster & Bulfinch's hall in New York City, when Edison's light bulb was first shown in public, were not new in those times, but new in the eyes of the people.

Phone No. 9

D. Lush, arrived home this  
week.

Mrs. Morehead wife of Steve  
Morehead, conductor on Great  
train suffered a badly sprained  
ankle in a fall recently.

Glen Stewart arrived on Mon-  
day night from California, hav-  
ing relinquished the position he  
held there with one of the lead-  
ing banks.

C. R. Moore, was in Medicine  
Hat, the first of the week at-  
tending a railroad telegraphers  
convention.

Appearances are that there  
will be more land under cultiva-  
tion this Spring, near to town  
than has been the case for sev-  
eral seasons past.

H. Hoffer, wishes to state  
that he will be in Empress, Fri-  
day, March 4, for the practice  
of his profession, and there-  
after, Thursdays as usual.

To Mr. and Mrs. T. C. Rogers  
On Their 50th Anniversary

We've gathered here to wish you joy  
On this your golden wedding day.  
May peace and love and happiness  
Attend and bless you all the way.

A half a century has passed  
Since you dear friends stood side by side.  
And vowed what life should hold in store.  
To share it all with 'twixt the tide.

Long years serene and untried  
For want of rest, in health or pain.  
You've trod the road towards the heights  
Through joy and sorrow, loss and gain.

It has not been my happy lot  
To know you well, the I regret,  
The loyal sympathy we crave  
When worry came and trouble fell.

The recording angel's book is sealed  
It's written here I cannot erase.  
But know you've kept your faith in God  
And that you love your fellow man.

And so complied with God's command  
That he may bless and give you rest.  
And make you heirs with his dear son  
That you may less upon his breast.

Your aim has been to reach the heights  
To learn life's lessons through and through.  
And gain the broader clearer view  
That you may less upon his breast.

I feel you have attained that end  
And pray that many years of life,  
May still be yours to cheer us on  
To reach the goal for which we strive.

With one accord we wish you joy  
On this your golden wedding day.  
God grant you many years of life  
And perfect peace along the way.

—Carrie M. Wick.

## CARD OF THANKS

I wish to express my heart-  
felt thanks to friends and  
neighbors for the many kind-  
nesses and the help given me  
during the illness and subse-  
quent death of my husband.  
Mrs. J. Kirner.

## Hospital Notes

Hugh McAnulty, underwent  
an operation for appendicitis  
on Wednesday and is progress-  
ing favorably.

J. Greenwald, of Leader, is  
being treated for a badly lacer-  
ated finger.

Miss Oids, of Bindloss, is here  
for two days under observation  
for abdominal injury.

Mrs. Miller, of Buffalo, re-  
turned home today.

Elmer Wager, is making good  
progress and expects to go home  
on Saturday.

## Farm For Sale

The East Half of Sect. 34, Twp. 23,  
Rgn. 2, West of the 4th. M. Alberta,  
subject to taxes from the 31st of Decem-  
ber, 1926.

Sealed tenders addressed to L. F.  
Clarry, Esq., C. C. Court House, Cal-  
gary, marked S. C. 2613 will be re-  
ceived up to Monday, the 21st day of March,  
1927 at 11 o'clock a.m. for the purchase  
of the above property.

The farm is located 11 miles from  
Acadia Valley, P. O. the nearest railway  
station, and 3 miles from the nearest  
school.

170 acres are under cultivation,  
of which 40 acres have been sown  
followed. Improvements consist of house,  
addition, granary and stable in fair repa-  
ir. Well day loan with 1500 ft. 2 1/2  
miles fencing.

No tender less than \$2100.00 will be  
accepted. Terms: Cash, or 16 p.c. in  
60 days without interest and the balance in  
equal instalments in 5, 12 and 18 months  
from the date of acceptance of tender  
with interest at 8 p.c. per annum. No  
tender necessarily accepted.

Certified cheques for 8 p.c. of purchase  
price must accompany tender. Bidding  
conditions of sale to apply except as to  
terms of payment.

Further particulars may be obtained  
from Messrs. McMillan, Mackay & Co., the  
solicitors for the Pacific 508 Grain  
Exchange Building, Calgary, Alberta.  
S.A.P.C. at Calgary, in the Province of  
Alberta, this 18th day of February,  
A. D. 1927.

"J. A. C. Clarry,"  
Clerk in Chambers.  
APPROVED: "L. F. Clarry"  
M. C.

## R. M. Mantario

(cont. from last week)

It is the intention of the  
Council to limit the roadwork  
expenditures to the last named  
figures; unless conditions are  
favorable, in which case the  
original amounts will be voted.

Considerable discussion took  
place in regard to the approval  
of free freight to settlers leav-  
ing the Municipality and com-  
parison with what was proposed to  
be done to assist those staying  
with it to obtain feed oats and  
fodder at a reasonable price and  
in a convenient manner.

The Secretary was instructed to  
take the matter up with the  
Department of Agriculture and  
press as vigorously as possible  
for at least as much assistance

to those remaining here as is  
being given to those who are  
pulling out and in consequence  
leading a heavier burden on  
the town remaining.

In the opinion of the Council,  
this assistance should be at  
least as many cars free freight  
on feed, as there are being  
provided free freight cars out.

Council adjourned at 8:30 p.m.  
G. Evans Sargent.  
Sec. T. ens.

Miss Myrtle Fountain, return-  
ing home, from Calgary, Mon-  
day.

Mrs. A. Munroe, of Calgary,  
is the guest of Mrs. C. R. Moore.

Canada scored again at the Chi-  
cago Exposition when the blue rib-  
bon grand championship in the  
Clydesdale stallion division went to  
Forest Favorite, owned by Haggerty  
and Black of Belle Plaine, Saskatchewan.

Last year the University of  
Saskatchewan took the coveted honor  
with Green Meadow Footstock. This  
year, it is said, the veteran Canadian  
stallion was an easy winner  
over all others.

"There is better hunting today in  
the Canadian Rockies than was the  
case when white men first began  
systematic exploration of them  
nearly fifty years ago," said Tom E.

Wilson, of Banff, one of the out-  
standing pioneer mountain guides,  
when interviewed at Canadian Pa-  
cific headquarters recently. Mr.

Wilson was the first white man to  
discover Lake Louise and Yoho Val-  
ley. A plaque or statue has been  
erected in the Yoho Valley in honor  
of him, by the Trail Riders of the  
Canadian Rockies.

TO: FRANCIS FOX,  
formerly of Empress, Alberta.

TAKE NOTICE THAT Action No.  
2719 has been commenced against you  
in the Supreme Court of Alberta, Judic-  
ial District of Calgary, by Netherlands  
Investment Company of Canada Limited,  
to recover \$187.32 and interest from the  
31st day of December, 1926 at 8 percent  
per annum due under a certain mortgage  
made by you to it dated the 19th day of  
December, 1917, covering the S.E. 1/4 of  
Sec. 22, Twp. 25, R. 1, W. 4 of 31th M.  
Alberta, and also for sale or foreclosure  
of the said land.

AND TAKE NOTICE THAT you may  
deliver on, or before the 30th day of  
April, A. D. 1927, a statement of  
Defence or (b) demand that notice of  
any application be given you and in de-  
fault of your so doing the Plaintiff may  
obtain judgment and final order for  
foreclosure or such other relief as it may  
be entitled to without further notice to  
you.

DATED at Calgary, this 18th day of  
February, A. D. 1927.

(Signed) J. A. C. Clarry,  
Clerk in Chambers.

Approved (Signed) L. F. Clarry,  
M.C.
